

# ULV Cold Fogger/Sprayer C100+

POWERFUL AND DURABLE ULV COLD FOGGER WITH ADJUSTABLE DROPLET SIZE

Tank Capacity -4Liters  
Power :220V/110V  
Motor: Samsung 1250W  
Flow Rate: 60LPH  
Droplet Size: 5 - 50 microns  
Net Weight: 3.5kg  
Dimensions 52 x 30 x 16

One of the most powerful and durable ULV machines of its size in the market, the C100+ has been equipped with a new air intake, reducing the core temperature of the fogger by 28%, enhancing its performance in long working conditions. Fitted with a new larger 4 litre tank and our exclusive 1250 Watt Samsung motor, this fogger can produce a powerful flow rate between 30-60 LPH and can easily cover an area of 100 m<sup>2</sup> in less than a minute. With an adjustable droplet size between 5-50 microns and spray distance of up to 8 metres at an angle of up to 80°, this fogger will be able to perform the most demanding of jobs with ease.

**Hypochlorous Acid (HOCl)** can effectively eliminate bacteria, fungi, viruses and spores. It combines properties that as a single anti-microbial element are limited. However, the combination of a high Oxidation-Reduction Potential and Free Available Chlorine amount creates a safe, fast-acting, cold anti-microbial solution superior to chemicals.
